## Newbury

### **Architecture**

We meet on the Fourth Tuesday of the month at 2:30pm, at Broadway House in Northbrook Street Newbury (opposite the Clock Tower).

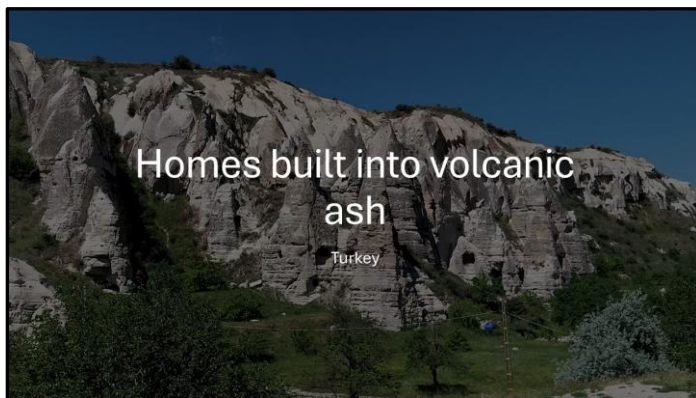

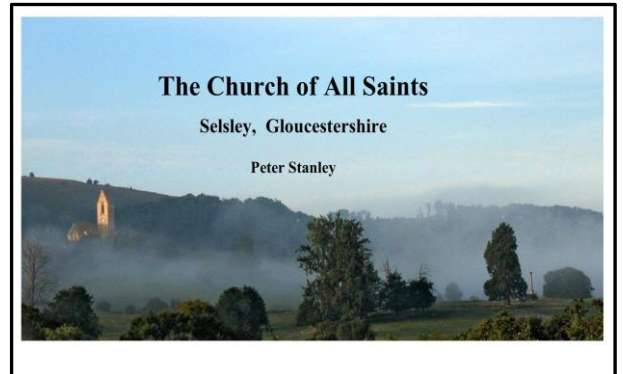

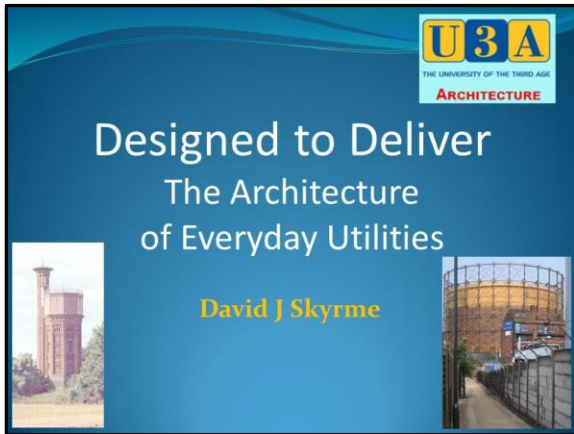

We study a variety of aspects of architecture. At some meetings our members give a short presentation on a particular aspect of Architecture - perhaps a building or a certain style they have studied or have an interest in, and we look at the social impact of architecture throughout history.

#### **Future Plans**

Looking at different architectural styles and the lives of famous architects using videos, reference books and the internet. In the summer our group visits villages & towns of architectural interest and also particular places, especially those that are a little different – and our members are very clever in finding places and houses of interest both architecturally and historically.

We only meet in the winter months as we like to go out in the summer discovering places for a future meeting.
