

WE LIKE BRIDGE

To celebrate Newbury U3A anniversary
A hand with 35 points. 1:26 Billion chance of getting it!

WE LIKE PLAYING

because it combines several enjoyable things at once:

- **Mental challenge** — every hand is a new puzzle, with bidding, memory, logic, and strategy.
- **Partnership** — you work with a partner, so success depends on communication and trust.
- **Social enjoyment** — it's a friendly way to spend time with others while still keeping the mind active.
- **Variety** — no two deals are the same, so it never feels repetitive.
- **Skill development** — the more you play, the more you notice patterns, improve judgement, and learn from mistakes.
- **A bit of excitement** — even quiet hands can become tense when a contract depends on one clever play.
- We like playing Bridge because it is sociable, challenging, and endlessly interesting. It gives us the pleasure of working with a partner, solving problems, and learning something new from every hand.
- **It is FUN and the tea and biscuits are great**
